Dear Executive Director Snow:

Please enter these comments into the formal record for your Draft Programmatic Environmental Impact Report and Statement. The CALFED Bay/Delta program must be revised to:

- not commit to building any new or expanded dams, reservoirs, or canals during CALFED's "Stage 1" (the first seven years of the program);
- increase investments in water conservation and efficiency, groundwater management, and drinking water treatment;
- improve water quality for people and wildlife by preventing pollution at the source;
- restore our rivers, bays, and fisheries by providing firm guarantees of more fresh water flows and by caring for the land around our rivers;
- not make taxpayers subsidize new or expanded dams, reservoirs, or canals.

Thank you,

Lester Snow
Executive Director
CalFed Bay/Delta Program
